5:04 p.m.

Hello,

We hope this email finds you well and that you have enjoyed your stay this week. We want to inform you about a potential weather event that could impact your visit in the coming days.

Tropical Storm Idalia is expected to hit Florida's Gulf coast as a major hurricane early morning on Wednesday, August 30. It is expected to rapidly weaken upon making landfall. Considering we are still 48+ hours away from the storm moving through our area, we are unsure of the extent of impacts to expect.

According to the most recent forecast, it's likely that the most significant impacts to our coast will be felt between Wednesday late afternoon into Thursday early morning. We should have a better understanding of the projected forecast and the potential impacts within the next 24 hours.

We will continue to monitor the storm projections and provide email updates. Currently, there have not been any mandatory evacuations ordered by Governor Henry McMaster.

Our office will remain open between 9 a.m. - 5:30 p.m. We encourage you to monitor this weather event and recommend watching the Weather Channel or the local news stations. You can also visit our website at www.GardenCityRealty.com or our social media page on Facebook, as we will post updates when they become available.

Sincerely,
Garden City Realty Rentals
